LOYALTY DAY TICKETS SELLING FAST.

The fans are certainly rallying to the cause and seem determined to keep organized baseball in this city. Loyalty Day tickets are selling very fast and from the present outlook Maysville will have the biggest Loyalty Day of any of the teams in the league. If this is accomplished the fans may rest assured that the grand old game of baseball will be in this city for some time to come. Don't be scared by the date of the big day, Friday, August 13, but buy a Loyalty Day ticket for yourself and one for your friend. They are only 50 cents.

SCHOOLS GETTING READY FOR OPENING DAY.

The public school buildings of the city are undergoing a thorough house cleaning in order to be in tip-top shape when the fall opens within a few weeks. This year the outlook is the brightest in several years and the public school officials are looking forward to the biggest year in the history of the schools.

POLICE COURT.

Police Judge John L. Whitaker had a rather slow day Tuesday, only two cases being before him and they were disposed of in the following manner: Hechinger Darnell, drunk, \$6.50. John Robinson, drunk and disorderly, \$10.50.

Both men failed to have the collateral and were sent for several days' sojourn in Hotel De Etel.

PONY CONTEST VERY POPULAR.

The pony contest recently launched by some of the progressive business firms of the city, in which a Sheland pony and outfit will be given away free to the most popular child in the city, is becoming very popular and already is the talk of the town.

IMPROVEMENT FINISHED.

Workmen have finished on the improvement on the cement pavement in front of the stores of Simon Nelson and Charles Traxel, on Second street. The improvement removes an eyesore and levels the street, giving it a much better appearance.

Mr. A. E. Arnold and wife, of Flemingsburg, were in this city Tuesday visiting friends.

D. HECHINGER & COMPANY'S BIG DRAWING AROUSES INTEREST.

On Tuesday afternoon at 2:30 in the presence of a large gathering and representatives of the press, Messrs. D. Hechinger & Company held the drawing for the ten big prizes they offered some time ago. The numbers were placed in a barrel and one number drawn from the barrel at a time. The first number drawn won the first prize and so on until ten had been disposed of. It has been the custom of this enterprising firm to hold periodical drawings for prizes and with each purchase they give a numbered ticket which participates in the drawing. Following is the list of prizes with the winning numbers:

- 1—Custom Suit 73,807
- 2—Ready-Made Suit 95,384
- 3—Young Man's Suit 81,884
- 4—Boy's Suit 58,087
- 5—Rain Coat 26,719
- 6—Lady's Trunk 37,906
- 7—Leather Bag 23,372
- 8—Half Dozen Shirts 80,625
- 9—Pair Hannan Shoes 84,872
- 10—Stetson Hat 39,703

MOVING PICTURE SHOWS.

(New York Evening Post.)
An elaborate picturization of Hall Caine's "The Eternal City," which is familiar to New York theatergoers in dramatic form, in which Viola Allen starred some years ago, opened at the Astor last night. Pauline Frederick is the Donna Roma in the film version, and a beautiful and convincing one. There is no doubt that the utmost care has been taken in the setting, and the scenes which were almost without exception taken in Rome, are exceedingly beautiful; particularly one of the gathering mob in the Coliseum carrying burning torches which flared up against the walls and brought out with wonderful clearness the majestic beauty of the great arena. Several other Italian scenes are of equal beauty—the Vatican gardens, the Castle of St. Angelo shimmering in the distance, and a sweeping view of the flowing Tiber. The story follows that of the book and the play, with a few slight changes. It is well acted, both in the principal and minor roles, and no pains have been spared in the luxurious settings throughout. Both Viola Allen and Pauline Frederick were at the performance last night.

Mr. William Norris, of Cincinnati, returned home from a trip to New York. Stopped off in Maysville to spend the day with his uncle, Mr. J. R. Carpenter.

Miss Lola Chamberlain entertained a number of guests last evening in honor of her cousin, Miss Alice Purcell, of Dayton, O.

Miss Margaret Fay, of Cincinnati, is spending a few days with Miss Ann Coughlin, of East Second street.

Mr. Robert Caldwell, of Vanceburg, was in this city Tuesday on business.

LAST WEEK

OF THE GREAT SPECIAL OFFER—CANDIDATES SHOULD READ WRITE-UP PERTAINING TO THE CONTEST TO FAMILIARIZE THEMSELVES WITH ALL DETAILS AND THEN GET BUSY.

Call On the Contest Manager Any Time—Contest Has Now Reached Gigantic Proportions—Every One Is Interested In This Great Battle.

Only four more days remain to take advantage of the great special offer and all candidates are alive to the situation.

New subscribers are coming in great numbers from the city and all territory surrounding.

The great Daily Bulletin-Public Ledger contest, while yet in its infancy, is creating more enthusiasm than any contest of a like nature ever conducted in this part of the state of Kentucky. The candidates are all hustling for votes day and night, putting in every minute looking for a prospective subscriber to Maysville's greatest newspaper. Many of them have taken up their cause and are doing good work for their leaders. Some of the candidates are making good use of the telephone, calling up their friends they are unable to see personally, while others find the mails a good medium to reach them and postal cards are being used profusely. These methods of securing votes are very good and would be of good assistance to any candidate. From now on new methods will be employed by different candidates and some startling developments can be looked for in the next few weeks. The contest will be conducted night and day by those who by their industry and popularity are striving to be chosen by the free votes of the Daily Bulletin-Public Ledger patrons as the fortunate young ladies selected as a recipient of the automobiles or one of the other magnificent prizes.

Every mail brings large numbers of votes for different candidates and it keeps the Contest Department busy all day and late into the night counting them and getting the standing of the contestants arranged for the following day's papers.

Contest a Success.

One feature about the Daily Bulletin-Public Ledger contest that has made it successful and extremely popular and which is causing interest to spread over the country at a rate unsurpassed in history, is the fact that all the candidates have an equal chance to win one of the prizes, and that girls in one district are not obliged to compete with the girls in the other district.

The large number of candidates in each district assures each candidate that no girl will be able to secure such a large number of votes that others will not be able to overcome the lead. The prizes offered are magnificent and the contest is still young. If you are a candidate and there are others who have more votes in the contest to date than you may have there is no cause for discouragement.

Great Special Offer.

For nine days only, beginning Friday, August 6, and ending Saturday, August 14, at 9 p. m. in addition to the votes given on subscriptions according to the regular schedule, we make the contestants the following offer:

We will give to each and every contestant an extra ballot of 100,000 votes who turns in to the Contest Department five years or sixty months subscriptions between the above dates. This is your chance to catch the leaders. Take advantage of it.

If you have any friends who desire to help you, send them up to the Contest Manager and he will give them a receipt book and show them how to go about getting votes. Call on the Contest Manager at any time and he will give you any information you may desire and assist you in any way possible.

Do It Now.

Now is the time to get in a few votes. The contest is fairly on its way and people all over this part of the country are aroused to meet the demands made upon them by the young ladies who are soliciting votes. If a little effort is displayed the people will be glad to help you. A reserve will do lots of good and it can best be acquired by getting people to subscribe for the Daily Bulletin and Public Ledger.

False Rumors.

DO NOT BELIEVE ALL YOU HEAR. SOME ONE WILL TRY TO DISCOURAGE EVERY GOOD THING. FALSE RUMORS OF ALL SORTS WILL BE GOING AROUND AND THE CONTESTANT SHOULD NOT ALLOW ANY ONE TO DISCOURAGE HER. REMEMBER, THEY ARE NOT IN A POSITION TO JUDGE THE CONTEST AS WELL AS YOU.

Open Evenings.

For the benefit of those who are not able to come to the office during the business hours, the Contest Department will be open every evening until 8 o'clock.

A GREAT REDUCTION

In going over our stock we find that we are OVERLOADED, and have decided to REDUCE STOCK, and it goes at cost.

This space will not permit us to list it all. One great bargain is 100,000 feet of an EXCELLENT GRADE OF OAK SIDING. This goes at \$2 PER HUNDRED. All other yard stock greatly reduced.

Don't miss this opportunity to get what you want in lumber and building material at the lowest prices ever known in Maysville. Terms at this reduced price are CASH.

HIGH WATER CAUSES MUCH DISAPPOINTMENT TO BATHERS.

The prolonged stage of high water is a keen disappointment to the many bathers. The present stage puts the north shore bar out of commission and the swimmers can not get their daily dip in the river. If the water had not been so high this year no doubt it would have been the best year for the bathers for some time, as the interest of the people in water sports is keen and many land-lubbers would have become the worst kind of sea-dogs. As it is the bathers and fishermen will have to wait for next year, as it is now too late for much low water.

WOMAN FALLS FROM CAR.

Tuesday evening about 8 o'clock Mrs. Jack Bolton, of Forest avenue, fell from a street car at the foot of Wood street in the East End. It is said that Mrs. Bolton tried to reach an object on the floor of the car and losing her balance, fell into the street on her head. She was removed to Cabbish's grocery, nearby. From all appearances she was seriously injured, but a medical examination proved her injuries only slight, although she suffered a severe nervous shock.

Plump young turkeys weighing three pounds and over still wanted at 75 cents each by the E. L. MANCHESTER PRODUCE COMPANY.

SUCCESSFUL EUCHRE.

Another very successful euchre was held at Eagles Hall, many couples being present. Mrs. P. W. Wheeler won the lady's first prize and Mr. Bernard Tomlinson won the gentlemen's prize. These euchres are getting more popular each time and deservedly so for they are a most pleasant entertainment and reflect credit upon those who are responsible for them.

Mrs. T. R. Valentine entertained delightfully at Beechwood Park on Tuesday afternoon in honor of her brother, Mr. W. E. Arnold, of Danville, Ill. At the appointed hour a bounteous course dinner was served in good old Kentucky style which was thoroughly enjoyed by all. Mr. Arnold left Wednesday morning for his home.

Mrs. Lottie Sproemberg and granddaughter, Miss Elizabeth Orr, have returned home after a ten days' visit to relatives at Ironton, Hanging Rock, Coal Grove and Ashland.

WANTED—A POLITICIAN.

Washington.—A Democratic politician who can exert the same, or approximately the same, influence in Congress as William J. Bryan can secure regular employment in the Department of State. No knowledge of or taste for foreign relations or international law required. Salary \$7,500. A perfect snap for the right man. Apply, with references as to political influence, to W. Wilson, White House, Washington.

Extraordinary as it may seem, this advertisement exactly sets forth the desire of the President and the qualifications he demands before he fills the Counselorship of the Department of State, a place which was filled with distinction by John Bassett Moore and which was made vacant by the promotion of Mr. Lansing to the Secretaryship of State. The great necessity of the administration, as the President sees it, is to strengthen itself with Congress and to replace the political influence lost when Mr. Bryan retired from the cabinet. For that reason, Mr. Wilson is hunting such a man as is described above and because thus far he has been unable to find him the Counselorship has remained vacant. The President regards himself and Secretary Lansing abundantly able to care for the foreign affairs of the nation and it is his carefully designed purpose to utilize the \$7,500 salary attached to the position of Counselor to procure the services of a shrewd politician, able to exert potent influence on the Bryan wing of the party and willing to barter his influence for the salary named. When such a politician can be found the Counselorship will not remain vacant another day. If a man of sufficient influence can be found he will be awarded his full share of patronage and will be permitted to name a successor to John E. Osborne, Assistant Secretary of State, who was chosen by Mr. Bryan for the sole purpose of maintaining intact Mr. Bryan's political organization. The purpose of the President to employ important officers to promote his strength with Congress is in accord with a policy he has pursued in a number of instances, notably in the case of ex-Congressman John W. Davis, now Solicitor General, and ex-Congressman A. J. Peters, now Assistant Secretary of the Treasury.

A WHINING EFFICIENCY EXPERT.

Washington.—Those who imagined that William J. Bryan and Joseph Daniels enjoyed a monopoly among cabinet members of making themselves ridiculous wholly overlooked the extraordinary ability in that direction of William Cox Redfield, Secretary of Commerce, the dead apostle of business efficiency. Ever since he attained to the dignity of a cabinet officer Mr. Redfield has been charging American manufacturers and business men with inefficiency, has been assuring them that times were prosperous and that their failure to realize the fact was due solely to their own stupidity and their inability efficiently to manage their business. But when the terrible "Eastland" disaster, which cost nearly 1,000 lives, brought charges of criminal inefficiency in the Steamboat Inspection Service, for which Mr. Redfield is responsible, he began to complain and lament and to cry that he was being unfairly treated. Then to demonstrate his ability and his grasp of the subject, when marine architects declared that it had been long known that the ill-fated "Eastland" was improperly constructed and lacked stability, Mr. Redfield made the sage announcement that there was no more to the business of the federal inspectors to determine the stability of passenger vessels than it was the business of city authorities to determine the stability of buildings. Some one must have told him, however, that city authorities do examine and supervise the stability of buildings for now Mr. Redfield has instructed that the federal inspectors investigate the stability of all passenger-carrying ships. But he is still protesting that it is unfair to criticize him or to intimate that there is any lack of efficiency in his department.

ENGLAND REBUFFS WILSON.

Washington.—England in her three replies to President Wilson's protests against interference with American trade gently but firmly rebuffs the President and asserts her determination to continue the course which this government has complained of. Sir Edward Grey makes an able and lawyer-like argument, quoting various decisions of the Supreme Court in support of his contention that the Order in Council does not violate the spirit and principles of international law, and intimating that if the differences of opinion between the two governments do not yield to ordinary diplomatic argument they are at least justifiable before a court of arbitration. Both the manner and tone of the British reply are exceedingly embarrassing to the President, because they afford little ground for the sharp and drastic note which it was his purpose to send to England as an offense to his last communication to Germany. Meanwhile Germany, unable to believe that an administration which will permit its men to be murdered, its women to be outraged and their property to be looted or destroyed in Mexico for two years without reprisals would go to war over the rights of its citizens to traverse the war zone even in the munition-loaded ships of nations with which she is at war, declines to answer President Wilson's last communication until she learns the character of the note to England. If the next note to England is not sharp and emphatic Germany probably will simply ignore Mr. Wilson's last communication and the United States will be left in the unenviable position of having been flouted by both parties to the European conflict, as this country has been persistently flouted by Mexico.

NOAH CAUSED MAN'S FALL. ANCIENT TABLET SHOWS.

Early Account of First Sin Announced By University.

Philadelphia, Pa.—It was not Adam and Eve who brought about the fall of man, but Noah, according to a translation of a tablet now in the University of Pennsylvania Museum. An announcement to this effect was made today by a representative of the museum. According to the Sumerian theology found on the tablet, which is said to have been written before the days of Abraham and translated by Dr. Steven Langdon, professor Assyriology in Oxford University, England, Noah was ordered not to eat of the cassia tree in the Garden of Paradise, and when he disobeyed the curse fell upon him.

The curse was that he should have ill health and an early death instead of living to be 50,000 years old, like his ancestors.

According to the announcement made today, Dr. Langdon bestowed much labor on the subject of the fall of man, not only in translating the tablet, but in comparing it with every known tablet or historical account of any kind, as well as with the account given in the Book of Genesis.

Dr. Langdon, according to the announcement, says that this tablet is at least 1,000 years older than the Genesis account, and, so far as known, is the oldest record of the sort in existence. The tablet was written more than 4,000 years ago, possibly 5,000 years, and evidently records a tradition which goes back to the early history of man. The Babylonian and Sumerian accounts place the flood at something like 35,000 B. C., and the lapse of time between the creation and the flood is filled by ten kings, who reigned altogether 432,000 years, an average of 43,200 years each. The reason that later kings reigned comparatively short periods is that Noah sinned in eating of the cassia tree.

SAYS HOOPSNAKES ARE FAKES.

There may be or there may not be any such thing as a hoopsnake, but Dr. A. Surface, of Harrisburg, Pa., who is the State Zoologist, has a one hundred dollar bill which says that no tail-biting, hill-rolling varmint ever lived, and he has offered the aforesaid bill to any one who will bring before him anything which even faintly resembles the alleged skidding reptile.

According to the accumulated recollections of that type of person who is almost continually pursued by snakes, a hoopsnake has a button on his tail, which in moments of alarm he puts in his mouth and goes rolling about at a speed of from twenty to thirty miles an hour. Good roads mean nothing in the young life of a strong-jawed and determined hoopsnake. For years it has been noted that a hoopsnake, no matter what he may do in the early moments of the flight along the highway, in all instances makes off at top speed at the finish, leaving no card, address or telephone number.

That fact is but one of several which have impressed Dr. Surface with the belief that a hoopsnake is a mental ailment and that he exists only in the minds of persons who tell a story well. He admits that if any one ever had been bitten, pinched or even kicked by one of these hoopsnakes he would have some faith in the recitals, but inasmuch as they always go rolling off stage he has decided that he can risk \$100 in an effort to locate and inspect one.

Those who have been booming the hoopsnakes for years have always believed that the reptile has a spike in his head, which is buried in a tree when the snake, driving recklessly, leaves the state road on his way down hill. Nowadays no end of persons are snooping around tree trunks in the vicinity of this town looking for reckless hoopers.

MADDOO NOT INTERESTED IN PLAN FOR FINANCING NEW GOVERNMENT.

New York, August 9.—William G. McAdoo, Secretary of the Treasury, after spending virtually the entire day at the sub-treasury in the financial district, denied late today that his mission here had been to discuss with bankers plans for financing a possible new Mexican government. In view of that the conference between Robert Lansing, Secretary of State, and the six South American ambassadors and ministers will be resumed here Wednesday, the meeting of Secretary Lansing and Secretary McAdoo at a hotel Sunday was regarded by persons interested in the Mexican situation as having some important bearing on the future of the disturbed republic.

Secretary McAdoo, however, said he came here on department business and not to discuss plans for financing Mexico.

Prominent Mexicans expressed the belief that the diplomatic conference was transferred to New York chiefly so the participating diplomats could be near financiers who have important interests in Mexico in order that their views might be obtained.

GOETHALS' WORK FINISHED—HIS RESIGNATION EFFECTIVE NOVEMBER 1.

New York, August 9.—The date of General George W. Goethals' resignation as governor of the Panama Canal zone has been designated as November 1 in his formal resignation, sent to Washington, according to an announcement made by him upon his arrival here today from Cristobal.

General Goethals is surrendering his office because he believes his work at Panama is done and the canal is operating satisfactorily at the present time. He has spent seven years in Panama. Although he will no longer be connected with the canal's one's affairs as governor, should his resignation be accepted, he said today, that he should retain his commission in the army.

Announcement of the date of his resignation was made at the conclusion of the last trip which General Goethals expects to make as governor from Cristobal to New York.

In obedience to instructions, General Goethals expected to leave New York after a few hours stay here, for Washington, where it is understood, he will confer with authorities regarding plans for national defense.

EVER HEAR OF EYE SUNBURN?

Protection of the eyes from sun-glare is more necessary than wearing a hat to prevent sun-stroke. We are indebted to the great scientist, Sir William Crookes, for his discovery of a wonderful new glass for spectacle lenses that makes it possible to filter the harmful heat and chemical rays from sunlight without perceptibly dimming the light or changing the colors.

We can duplicate your prescription in this glass which will adequately protect your eyes no matter how much they are exposed to strong sun or electric light.

WASHINGTON OPERA HOUSE

Every young man has a period when he tries to look like the collar ads in the street cars.

MEXICAN PLAN IS READY FOR PRESENTATION.

Washington, August 9.—Powers of North and South America, already have agreed upon a definite plan for dealing with the Mexican problem, and when the Pan-American conference is resumed in New York Wednesday, the program will be formally ratified. This information came today for Secretary Lansing, who, though he would not go into details, said he was decidedly encouraged over the prospect.

The confidence expressed by officials generally here that the conference representing the United States, Brazil, Argentina, Chile, Bolivia, Guatemala and Uruguay will be able to shape a course likely to bring peace and restore constitutional government in Mexico, is due to the fact that all are agreed that most of the people of the revolution torn republic are thoroughly sick of war and with encouragement from friendly powers, will promptly join in a movement to clean house. A large section of the country and a vast majority of the people have not been involved in the fighting which followed the overthrow of Huerta. Moreover, it had been reported to President Wilson and Secretary Lansing that only the fear of reprisals by the military chieftains has kept the people in subjection while the country has been impoverished by the battles of relatively small forces of armed men.

Reaching their conclusion on these reports the Pan-American conference are understood to have determined to present the situation to all of the various elements in Mexico, addressing directly not only Generals Carranza, Villa and Zapata, but the governors of states, all military leaders with any considerable followings and other influential men urging them to come together for a conference at which a substantial provisional government might be framed.

A government so set up would have the support of the United States and other American republics. Officials here believe it would be able to suppress promptly any dissatisfied groups which might attempt to continue civil strife. It is hoped that none of the important chiefs will offer opposition to the plan, but if trouble does develop, and action is necessary by the American powers, the conference believe they would have the support and approval of the civilian population of Mexico in any step which might be taken to assure the restoration of peace.

UNITED STATES WILL CONTINUE TO WORK ALONE IN TRADE FIGHT.

Washington, August 10.—The United States will continue to act alone in representations to Great Britain regarding neutral trade. It was learned last night that negotiations begun by the Swedish legation here to secure American co-operation in proposed concerted action of neutrals to protest against the British orders in council, in so far as they work hardship on neutral commerce have brought no results.

The most recent Swedish proposal contemplated identical notes of protest by neutrals, flat rejection by the American State Department having met a previous suggestion for a joint note. Negotiations are still in progress but have failed so far to develop a common ground upon which action could be based.

The Swedish legation has been pressing its proposal vigorously. The first plan, contemplating joint protest by the United States, the Scandinavian countries and Holland was rejected on the ground that the United States could not involve itself in any agreement that might be interpreted as contracting "entangling (European) alliances." The new proposal then submitted suggested that all neutral nations whose commerce was suffering through the British war measures should agree upon a policy and act in co-operation, sending identical notes to London and generally concentrating their efforts.

Negotiations progressed to a point where both the Swedish and American governments prepared tentative drafts of proposals to be sent to Great Britain. The Swedish proposals were submitted to the State Department, but were found to be unsatisfactory in numerous details.

GERMANS TAKE ANOTHER CITY FROM RUSSIANS.

London, August 10.—While the Austro-German armies made fresh progress today in their campaign against the Russians the conflict on the western front took new impetus, Sir John French, commander of the British expeditionary force, reporting a fierce artillery engagement in which British and French forces captured trenches at Hooze along a front of 1,200 yards.

The occupation of Praga, reported by Berlin, brings to a dramatic climax the first phase of the drive at the Polish capital and the region of eastern Poland of which Warsaw is the dominating center. Praga is essentially a part of the capital with great railway stations on the roads running to Petrograd and Moscow.

Few details have been received of Grand Duke Nicholas' final stand at Praga, but the indications are that the withdrawal of the Russians became imperative to escape from the German lines gradually drawing together in their rear.

Warsaw is now the apex of a vast letter V, the arms of which are the river Narw on the north and the Vistula on the south. The German lines spread along these river are contracting gradually as the armies in the north and those in the south approach each other. The strip of territory across which the Russians may withdraw to safer positions now is hardly more than thirty miles across.

Besides this enveloping movement immediately to the east of Warsaw, Berlin reports a steady hammering at the great Russian fortresses of Kovno and Lomza, the chief significance of which is their proximity to the lines of railway communications to Petrograd. Novogeorgievsk is the only place west of Warsaw at which a Russian garrison remains and its fall seems imminent.

The attitude of the Poles towards the new German regime is arousing deep interest as the occupation of Warsaw unites for the first time three branches of the Poles heretofore divided among Russia, Germany and Austria. Under the Russian regime Poland has been a hotbed of disorder and it remains to be seen whether control of this occupied territory will be as difficult a problem for Germany as it has been for Russia.

The official report from Berlin characterized the operations around Hooze as "a battle" but Sir John French's later report shows them to have been another trench fight preceded by a severe artillery exchange and resulting in the recapture by the British of nearly a mile of trenches previously taken by the Germans.

This has served to divert public attention temporarily from the magnitude of the German sweep in the eastern field, but operations in the west still lack general significance.

The commander of another British submarine whose name has not yet been disclosed, was reported today to have distinguished himself by sinking the Turkish battleship Kheyr-Ed-Din, Barbarossa.

PRESIDENT MAKES ESCAPE AFTER HE HELPED AUTOISTS.

Cornish, August 9.—President Wilson took and automobile ride today, and during his trip went to the assistance of three automobilists whose machine had overturned onto them about three miles from his summer home. The President was automobiling with Mrs. Francis B. Sayre, his daughter, and Dr. Cary T. Grayson, his naval aide and physician. As the President's automobile rounded a curve he and his companions discovered another machine overturned at the bottom of an embankment. Mr. Wilson and Dr. Grayson hurried to investigate. They found Miss E. A. Swasey, Mrs. Emma Hataway and C. C. Judd, all of Norwich, Vt., underneath the automobile, and the President helped to pull them out. They were badly bruised and frightened, but not seriously injured.

Those in the overturned automobile did not recognize the President and did not know who had helped them until later, but they thanked him profusely for his aid.

PATROLS HALT RUSSIAN SHIP.

New York, August 10.—The Russian steamer Novgorod, on her way from her pier to Gravesend Bay, to load powder, was halted today by the United States neutrality patrol in the Narrows, boarded and sent back to her anchorage at Staten Island. She had neither cleared the port nor could show a permit to load powder.

REFUGEES IN RIGA.

Petrograd, August 9.—Refugees from Courland continue to pour into Riga by the thousands and the fields outside the town are filled with herds of cattle and droves of horses that have been rescued from the German invaders of the province.

GENERAL CACOS WILL NOT OBEY AMERICAN ORDER.

Washington, August 9.—Encouraging reports on conditions in Haiti came today from Rear Admiral Caperton. With American marines and blue-jackets controlling the principal towns, naval officials administering the customs house and revolutionary leaders giving assurances of co-operation, officials here hope for rapid progress toward restoring a permanent native government.

General Bobo, the northern revolutionist, has arrived at Port Au Prince, renounced his pretensions to executive power and ordered his soldiers disarmed and sent home. He has assured Admiral Caperton he will co-operate in efforts to restore order. Bobo is a candidate for the presidency, but has agreed to abide by the choice of the congress. Similar assurances have been given by Bourand, another presidential aspirant.

The United States will require that complete tranquility prevail before any step toward seeking an election is taken.

Secretary Lansing today explained the occupation of Haiti's custom houses. "The custom houses are being supervised by American authority," said he. "A state of anarchy exists in the country. It is necessary that we should see to it that the customs revenues do not go where they do not belong."

No decision has been reached by this government as to representations to be made at Haiti.

Cape Haitien, August 9.—General Cacos, one of the leaders of the recent revolutionary movement, has refused the demand of the American consul that his forces disarm, and this, in spite of the request to the same end forwarded Cacos by telegraph from Dr. Rosalvo Bobo, the leader of the revolution. Cacos and his men are outside of Cape Haitien, and are preventing the coming of supplies from the countryside to the city. Their purpose is to starve the population.

The officer in command of the American marines on shore has sent an ultimatum to all revolutionary chiefs, insisting that the people of Cape Haitien be permitted to pass freely where ever they want to.

The custom house at Cape Haitien is open but it is under the administration of American officers.

BILLION BUSHEL CROPS GROWN IN ALL CEREALS ARE REPORTED.

Washington, August 10.—Three billion bushels of corn, one and a half billion bushels of oats, and a billion bushels of wheat are in prospect for this year's American harvest. Record crops of rye, white and sweet potatoes, tobacco, rice and hay also are predicted for the prosperous farmers, who have planted 310,546,000 acres, or 10,000,000 acres more than last year, to their principal products.

The wheat crop, the greatest ever grown in any country, will be worth more than \$1,000,000,000, while the corn crop's value may reach \$2,500,000,000. Estimates of the principal crops announced by the Department of Agriculture based on conditions of August 1 show that all crops will be greater than last year. Interest centered on wheat and corn.

Both showed improvement over July conditions though excessive rains and cold in the central states interfered with threshing. Oats also suffered in those states, but in other sections the improvement more than offset this.

Corn prospects increased almost 100,000,000 bushels with the principal gains having been Illinois 30,000,000 bushels; Kansas, 24,000,000 bushels; Oklahoma, 26,000,000 bushels; Nebraska, 15,000,000; Iowa, 14,000,000 bushels, and Texas, 10,000,000 bushels.

Kansas showed a loss of 12,000,000 bushels in winter wheat; Oklahoma, 6,000,000; Nebraska 4,000,000, and Missouri 3,000,000 while Ohio and Indiana showed an increase of 3,000,000 bushels each.

While potatoes promise to exceed their former production by 103,000,000 bushels, and sweet potatoes by 4,000,000 bushels. Other increases over record crops indicated include, tobacco, 28,000,000 pounds; flax 4,200,000 bushels; hay 2,400,000 tons and rye 1,300,000 bushels. Corn prospects fell 200,000,000 bushels and oats 16,000,000 bushels below the records.

PEACE TALK INCREASES.

Rotterdam, August 10.—There is much talk in Holland of opening a discussion between the belligerents on peace terms. The Courant publishes today an article from an anonymous diplomatic source urging that an immediate peace might be possible, if not easy, and recommending that the press of the neutral countries undertake the task of "mediation and reconciling and removing the errors."

GERMANY CAN NOT HOPE FOR PEACE BY HER BATTLES.

Rotterdam, August 10.—There is much talk in Holland of the possibility of opening a discussion between the belligerents on peace terms. The Courant publishes today an article from an anonymous diplomatic source urging that an immediate peace might be possible, if not easy, and recommending that the press of the neutral countries undertake the task of "mediation and removing the errors."

The Dutch anti-war league at a meeting last week at The Hague adopted a resolution urging the Dutch government to call a conference of the neutral powers in the interest of peace. "The conference to sit until the end of the war for the purpose of preparing for and introducing measures at the proper time."

The article in the Courant which has attracted wide attention, in Holland, says in part:

"Although the prospects of the Germanic powers are now better than they ever were before, they can not hope for a settlement by a battle, and therefore, wiser counsels may prevail. As to the British, it is not impossible that they will ultimately listen to the voice of reason. There is no reason why the opponents should suffer conditions that would only prolong the war unduly. There are increasing signs that international hatred is decreasing. In the not too distant future the people of Europe will know how long the war is still to last."

MADO, WILSON AND WILLIAMS.

Washington. — Secretary McAdoo, after a conference with the President at his summer home, has announced the purpose of the administration to jam through a shipping bill at the coming session of Congress. Senator Williams, of Mississippi, has proclaimed his purpose to fight for such a bill, and the effort to line up Democratic members of both Houses is already on. Nothing could more strikingly illustrate the attitude—the undemocratic attitude—of this administration. The people, through their representatives in Congress, have rejected the Shipping Bill. Eighty-five per cent of the 282 member organizations of the Chamber of Commerce of the United States voted emphatically against the principle of the Shipping Bill. Exports in American vessels have increased 68 per cent in the last year. Every shipyard in the country is busy to its utmost capacity. In a word, if there ever was an occasion for the Shipping Bill it no longer exists, and the people have declared against it.

INSURANCE MAN WAS SUDDENLY STRICKEN.

Cincinnati, August 11.—William Sowards, aged 60, a well known insurance man, whose home was at 838 Hutchins avenue, Avondale, died Tuesday morning at the General Hospital soon after he had fallen unconscious on the sidewalk at Sixth and Main streets. Death, according to physicians, was due to uraemic poisoning. A short time previous to his death, Mr. Sowards had left his office in the First National Bank building to complete details of the sale of his home on Hutchins avenue and the purchasing of a house on Reading road. The man's name, sewed in his coat, led to identification by his son, William Sowards, Jr. Mrs. Sowards and her daughter, who were spending a vacation at Greenup, Ky., were notified. William Sowards had been prominent in insurance circles for twenty-one years. He was president of the Field Club of Ohio Fire Underwriters, and a member of Maysville Commandery No. 10, K. T.

HOME COMING WEEK MAY BE CALLED OFF.

Owing to the difficulty of securing a high-class carnival for the Homecoming Week, which was to be held August 23, the promoters are thinking seriously of calling off the big event. They say that the leading carnivals are all contracted for and it is mighty hard for them to get one. At the present time they are trying to get the carnival that is showing at Ironton this week and have some chances of landing the show. If this is not done the Homecoming Week will in all probability be called off, much to the disappointment of many.

ARREST BAD MAN.

Sam Chinn, of Cincinnati, was arrested Tuesday afternoon by the police on the charge of being drunk and disorderly. Sam, it seems, is visiting some relatives in this city and, meeting some of his old pals, they proceeded to get "tanked up." In the process Sam raised quite a disturbance and the police were called. They escorted him to jail, where he will stay until his trial this afternoon. When arrested Sam was the worst man in the country, to hear him talk.

GRASSHOPPER PLAGUE.

Washington, August 11.—The grasshopper plague has made its appearance in Central America, reports Special Agent Harris, now in San Jose, Costa Rica. The grasshoppers appear to be working south. Those appearing in Guatemala are from the state of Chiapas, Mexico, and now that they are in Costa Rica it means an invasion of Panama also. As this is the beginning of the rainy season, and the tender young corn is just getting a start, and as the voracious grasshoppers prefer corn to anything else, it looks as if the United States would be called on to assist Central Americans with shipments of food for perhaps another crop year. This may have a tendency to offset the evil effects of large importations to this country of corn from Argentina, which now finds an easy market in the United States on account of the fact that the Democratic tariff law put corn on the free list, though retaining a duty on rice, a southern product.

MANY FIRMS GOING TO CLOSE FOR LOYALTY DAY.

The list of firms that are going to close on Loyalty Day is growing longer and longer, until it now looks as if the old town will be all shut up when the gong rings for the game. This spirit is to be commended and shows that the merchants realize a good thing when they see it. One merchant thinks that baseball is one of the best ads the city of Maysville has and says he will work his darndest to keep the game here. If we had a few more like him we would have a real town. Here are some new additions to the Loyalty Day closers: McIlvaine, Humphreys & Knox, and all the barber shops.

ANNOUNCEMENT

The following prices f. o. b. Detroit, effective Aug. 2, 1915:

Ford Runabout\$390.00
Ford Touring Car440.00
Ford Town Car640.00

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to Aug. 1, 1916.

Profit-Sharing With Retail Buyers

On August 1, 1914 we made the announcement that if we could make and sell at retail 300,000 Ford cars between August 1, 1914 and August 1, 1915 we would share profits with the retail purchasers, to the extent of from \$40 to \$60 on each car. We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

We are however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars.

"IDEAL"

Fireless Cook Stove

Roasts, Bakes, Steams, Stews, Fries, Boils

Women who have never believed in the fireless cookstove idea are the women to whom we especially want to show the "Ideal." Broad-minded sensible women who are open to conviction. We don't blame them for being skeptical. We admire the woman who does not get all her convictions from someone else, but who thinks for herself.

When you come to our store and have the Ideal Fireless Cookstove explained to you, you will appreciate it as a Fireless Cookstove you have been looking for—the one that meets your requirements in every detail—quality of material—method of construction—design—appearance and the assurance of service that you get from these combined features.

Every day that any woman does without an "Ideal" she is depriving herself of the greatest household convenience of the age.

Come in—let us show you the "Ideal."
